

TraumaOne[™]
LORENZ[®] PLATING SYSTEM

BOMET[®]
MICROFIXATION
One Surgeon. One Patient.[®]

One Surgeon. One Patient®.

Over 1 million times per year, Biomet helps one surgeon provide personalized care to one patient.

The science and art of medical care is to provide the right solution for each individual patient. This requires clinical mastery, a human connection between the surgeon and the patient, and the right tools for each situation.

At Biomet, we strive to view our work through the eyes of one surgeon and one patient. We treat every solution we provide as if it's meant for a family member.

Our approach to innovation creates real solutions that assist each surgeon in the delivery of durable personalized care to each patient, whether that solution requires a minimally-invasive surgical technique, advanced biomaterials, or a custom, patient-matched implant.

When one surgeon connects with one patient to provide personalized care, the promise of medicine is fulfilled.

Midface Screw Container

Comprehensive

One set contains all implants and instrumentation

TraumaOne™ LORENZ® PLATING SYSTEM
